1. A new 150-kilowatt Radio Belgrade transmitting station is located south of the village of Zvecka, to the left of the Obrenovac-Valjevo highway, approximately three kilometers from Obrenovac, beyond the Obrenovac-Ljig railroad pass. A straight asphalt road, 250 meters in length, leads from the main road to the transmitting station.
2. The radio station is located in an area 300 meters long by 300 meters wide, which is surrounded by barbed wire. The radio equipment is located in a two-story building 40 x 40 meters, which stretches from the northern corner to the center of the area. The studio proper is located in Belgrade. A parabolic-shaped antenna, which is 250 meters high, is located in the corner which is on the opposite side of the building.
3. Four buildings to house the personnel are located to the right of the road which leads to the transmitting station. Each building contains four apartments.

Comment: It is believed that the above station is an auxiliary transmitting station for Radio Belgrade I, which has a power of 150 kilowatts.
